

Tim Griffin – Governor

Close family ties in Fenton and Longton since childhood keeps my heart in Stoke on Trent.

My business background of twenty some years have given me good insight to customer service and finance and I am happy to serve Glebe as best I can.

I was delighted to become a governor prior to the schools successful transition through the academy process whilst maintaining a good happy rounded education for all.

The last few years have been insightful, challenging, and fun. The SLT is a joy to work with, the children are an inspiration. The results – OUTSTANDING.

I remain committed as part of a talented, forward looking, team of governors that share the “no excuses” ethos of the school and are open to change.

I am confident that the next few years will see Glebe continue as a beacon of good practice in teaching, a place where parents will want their children to be educated, and an environment the children will talk about for the years to come.
