

GLEBE ACADEMY GOVERNING BODY – NATIONAL FINALISTS, May 2019.

In recognition of the outstanding vision and values of Glebe Academy the governors were invited to attend the Houses of Parliament in London on 21.05.2019 as national finalists at the National Association of Governors Awards.

This is an amazing achievement and a national recognition for the governing board of a single school or academy, multi academy trust or federation that has an inspiring vision, culture and ethos alongside the ability to demonstrate how evidenced progress is being made towards achieving that vision with a clear strategy in place.

Nine Board delegates attended the awards and we all feel very proud of the enormous support our dedicated Board gives to the pupils, staff and local community at Glebe Academy.

The development and importance of building an effective, able, strategic and well principled governing body has long been a focus of priority for the academy with our Board of Governors playing a crucial role in supporting and sustaining the very high outcomes that the children at Glebe Academy consistently achieve. Well Done!!!
